Why Taptilo?

- **Enjoy braille learning**
Learning braille is fun and easy with the gamified activities and curriculums.
- **Learn braille by yourself**
Get started learning without the supervision of instructors through Taptilo's Self-Study Mode. Taptilo provides full audio instructions along the way.
- **Practice braille systematically**
Practice read, read and write, and dictation systematically. Taptilo includes learning contents from dots to words.
- **Customize the curriculum**
Upload your own word list through the app and customize your learning material. The list could be added to the Taptilo device.
- **Include more topics including Music Braille**
Use Taptilo to learn braille music. You can even compose music with Taptilo!

Taptilo 4.0

Connect Taptilo 4.0 app with the Taptilo device through Bluetooth. Braille learning will be much easier. Enjoy the same contents as same as in the Taptilo device.

- **Anyone could be a braille teacher!**
All the contents are shown in mute letters and braille in Taptilo 4.0. Even if you don't know the braille, you could teach it!
- **Manage the learning progress**
Create an account and learn whatever you want. Taptilo will save all the learning records.
- **Create your own lesson**
Make the lesson with the Taptilo 4.0 app! Add the list to the Taptilo device so you can learn braille anywhere, anytime.

Taptilo Classroom

Braille teachers can teach braille efficiently with Taptilo Classroom! It is \$8.99 per month for each student. You can enjoy a one-month free promotion after downloading the app!

- **Create and manage the classroom**
Invite students to the classroom. While connected with Taptilo, you can teach the students in the same classroom at the same time by controlling multiple devices at the same time.
- **Teach braille remotely**
1 on 1 remote braille education is available. Select the content in Taptilo Classroom, it will be shown on the student's Taptilo device.
- **Give quiz and assignments**
Assign quizzes and homework to the students. Set up the deadline, word lists, and activities for each student according to their learning progress.
